T. M. Jeffers Esq. Report for Tuesday Nov 16/26.

There are many of these if I could get "Gregory" could give attached information as I knew at 7.30 PM Simpson was going to ask for adjournment until Thursday morning & the Hog women, also I told Gregory no danger of Hog women being brought in Court today. There was only wild rumors between reporters telling each other ~~today~~ about not getting a picture of her being brought to Somerville and take it from me She will not be here Thursday. even if she does with her testimony it is a shame if the Judge allow this case to go to the "Jury" or the public who has heard such ghastly testimony done not knowing was constitute testimony say the case is a farce, &c.

One gentlemen who told me he had come over 60 miles to hear the case to day and I tipped him how to get in the Court House. Dot. "Joe" do not know his last name, he got in and when he came out at 3.30 P.M. got disgusted testing to same said to me he could not sit another day there for $100.00 and hear to such testimony, the Conductor on Trolley Car that I come up on in the morning arriving here at 8.15 or 8.20 AM always calls out when he get to Court House, all out for the Opera House. I trust Simpson does have Hog women brought in

Stricker that you folks stop her from telling her
made up story as Simpson is going to have it
put over and then if it does not Court the
Jury will hear it any way; and he knows
she will go off after telling it; he certainly had
his witnesses who knew so much, have known
nothing as far as I can learn only go so
far but stop at wrong end of bridge, it is
common talk that the Jury would not believe her anyway.

Respt Submitted
